- 4 “AA” transmitter batteries

QUICK CONTEXT

The ARRMA FREEDOM FLYER GROM 4X4 RTR is a compact, patriotic monster truck created in collaboration with Cleetus McFarland and Tomfoolery Motorsports. Designed for „full-send“ bashing, it features a reinforced deep-tub chassis, high-travel suspension, and a clipless body system for easy, tool-free access. This RTR model is ready to run out of the box and offers rugged, star-spangled fun for bashers of all levels.

OVERVIEW

Born from the full-send spirit of Tomfoolery Motorsports and Cleetus McFarland, the ARRMA FREEDOM FLYER GROM 4X4 RTR Monster Truck rolls in waving the stars and stripes loud and proud. Forged for both newcomers and seasoned bashers, the FREEDOM FLYER GROM packs the raw power and patriotic attitude of a backyard bashing legend, all wrapped up in a compact, take-anywhere frame.

From the moment you crack open the box, the FREEDOM FLYER GROM is ready for a full-throttle celebration. No build, no extra gear. Just charge the battery, pull the trigger, and let freedom rip. The clipless body system makes it easy to access the battery or get back on the road after a crash. There are no pins to lose and no tools required.

Underneath, the reinforced chassis and high-travel suspension are built to take the kind of punishment Cleetus and the Freedom Factory dish out daily. This truck isn't just tough. It's smart. The deep tub chassis keeps out dirt and debris so you can bash harder without clogging the works. The monster truck stance and elevated center of gravity let it conquer every obstacle in its way. Chaos, indoors or out, is where the FREEDOM FLYER GROM feels right at home.

The battery tray uses two catches that swing into place, keeping things simple for new drivers or anyone who wants more time bashing and less time tinkering. Every element is built for relentless, full-send action—worthy of the red, white, and blue it flies. No distractions. No half-sends.

The FREEDOM FLYER GROM isn't just a truck, it's a celebration. Whether it's your first truck or your fiftieth, this mini patriot means business. Compact size. Full-throttle freedom. Bash harder, faster, and longer, wherever you are. Star-spangled monster truck mayhem starts here. Hell yeah, brother.
