# SPEKTRUM™ NX7E+ BLACK EDITION 14-CHANNEL 2.4GHZ DSMX® TRANSMITTER

## KEY BENEFITS

1. **14-Channel support and BNF Model Templates for easily setting up most BNF Aircraft**
2. **Modern case design with a stunning black finish**
3. **AS3X+ Forward Programming**
4. **Supports Smart model file downloads**
5. **Folding antenna for compact storage and transport**
6. **Spektrum™ AirWare™ programming for easy programming out of the box**

For the beginner to intermediate, BNF-type, and budget-conscious RC pilot, the Spektrum™ NX7e+ Black Edition gives you the unbeatable response of DSMX® technology, the simplicity of Spektrum AirWare™ programming software, and many other features you can't find on other similarly priced radios. To all this, it adds a stunning, black finish that further sets it apart from everything else in its class.
