TRAXXAS®

X-MAXX TOUGHNESS. MONSTER TRUCK STYLE.

The X-Monster combines the legendary power, size, and durability of X-Maxx with the ability to add replica monster truck bodies. Choose your favorite Ford or Chevy body (sold separately) and unleash 30+ volts of extreme 8s power with the Traxxas X-Monster!

450 oz/in of Torque!

2085XL STEEL GEAR HIGH-TORQUE SERVO

HD SUSPENSION ARMS WITH CAPTURED PINS

- Double-shear connections at all mounting points
- Captured lower hinge pins at the outer joints now feature locknuts to hold them securely in place

EXTREME HD OUTPUT YOLKS

- New beefed-up design introduced on the 2WD Pro Scale Sand Car
- Additional steel makes these the strongest output yolks ever fitted to X-Maxx

X-MAXX® MT CHASSIS

NEW BELTED TERRA GROOVE TIRES

- Huge 8.6” outer diameter
- Belted, chevron-pattern carcass limits ballooning
- Deep grooves provide excellent traction on loose sand, gravel, and mud

CHOOSE YOUR BODY

- New clipless monster truck replica bodies
- Extra body reinforcements hold the body securely to the full-length inner cage
- Body and chassis are packaged and sold separately

X-MAXX MT
ASSEMBLED BODY

Customize the X-Maxx MT Chassis with a replica Ford® F-150,® Chevrolet® C/K, or BIGFOOT® No. 8 body (sold separately). Each clipless MT body features a full-length reinforced body cage for maximum rigidity. The X-Maxx MT Chassis also accepts existing X-Maxx clipless bodies.

Body and chassis are packaged and sold separately.

ACCESSORY LED LIGHT KIT

The X-Maxx LED Light Kit (7885) can be used on X-Monster bodies when paired with the Light Bar Adapter Kit (7693). The adapter kit makes the installation simple and comes with a bumper cover, a cutting template, and step-by-step instructions to ensure a clean, factory-installed look.

Adapter Kit

7885
X-Maxx/XRT LED Light Kit

COMPATIBLE WITH ACCESSORY WHIP LIGHTS

The X-Monster body cage features bosses to mount the same high-visibility whip lights used on Pro Scale Sand Car (10992). These colorful lights rise over 10 inches for improved visibility when storming across the horizon. Flex-Tech™ spring-loaded mounts allow the lights to bend without breaking.
